EXPLANATION OF THE ENTRIES

Elements

A full-length entry in the List comprises three parts. The first part starts with a serial number and provides the title of the periodical in bold letters along with year of starting with corresponding volume and/ or issue numbering (if any) and also the year cessation [in the case of a ceased periodical] with corresponding volume and/or issue numbering (if any). The second part provides information as to sponsor, periodicity, place of publication, and language. The third part provides the note with smaller fonts. For further clarification, let us take the following example.

5. Paśvāvālī No. 1(Feb. 1822) – No.6(182?). NS No.1(1833?) –No. 16(1838?). Calcutta School Book Society. Calcutta. Monthly. Bengali [Nos. 1 – 6]; Bengali and English [NS Nos.1 – 16]. Zoology. First periodical exclusively devoted to animals published from India. Also first periodical in Bengali devoted to a scientific subject, i.e. zoology. In all probability, this is also the first periodical amongst all Indian languages devoted to a scientific subject. NS Nos. 1-8 formed Vol. 1, Pt. 2; and NS No.9 –16 formed Vol.1, Pt. 3.

In the example given above, 5 is the serial number and Paśvāvālī is the title. No.1(Feb. 1822) – No.6(182?). NS No.1(1833?) –No. 16(1838?) are the details of year of starting and cessation along with issue numbering. It indicates that the periodical started in February 1822 with issue no. 1 and published 6 issues in the first instance. The date of publication of the 6th issue is not decisively known. The periodical restarted possibly in 1833 and published 16 issues in the second instance. As the periodical has started after a gap, NS, i.e. New Series has been used to indicate the gap in the intervening period. The 16th issue possibly came out in 1838. The periodical did not follow any volume numbering. The '?' mark has always been used to indicate lack of certainty.

The second part of the entry comprises the following elements: Calcutta School Book Society. Calcutta. Monthly. Bengali [Nos. 1 – 6], Bengali and English [NS Nos.1 – 16], Zoology. Here, Calcutta School Book Society is

the sponsor, Calcutta - the place of publication, Monthly - the periodicity, Bengali - the language, and Zoology is the subject of the periodical. The entry also indicates that the periodical became bilingual when its new series started. It is to be noted that the sponsor has not been recorded separately when it forms part of the title. Periodicity has been mentioned where it did not form part of the title and was easily available. Language has been mentioned in the case of non-English periodicals only. The subject of the periodical has been indicated when it is not clear from the title.

The third part recorded with smaller fonts represents the note section.

Changes in the Title

The simple changes in the title of a periodical has been indicated with the phrase *Contd. as* (i.e. continued as) [vide entry no. 1]. The changes has been indicated with → when the volume/s and the corresponding year/s related to the change could not be ascertained but the order of succession of the title was known. When that was not known the continuity has been shown with a semicolon (;). Minor changes in the title have been indicated with a hyphen (-). When evidences suggested that the periodical was also known by a certain title and no other information was available, the phrase *Title varies* has been used. Many a time cataloguers has made certain changes in titles to bring in uniformity, increase legibility, ensure brevity etc. In such cases the phrase *Recording varies* has been used. When it was not known whether the change is due to the actual change in the title or due to recording, the phrase *Title/recording varies* has been used.

Continuation of a Title

The continuation of a title has been indicated with a dash after volume-year, number-year, or simply after year. In certain cases the continuity of a periodical could be ascertained only up to a certain date. When the continuity beyond that date was considered highly probable a + sign has been added to the date till which the periodical certainly continued.

Changes in Sponsor

In large number of cases, the sponsor of a periodical underwent changes. This phenomenon has been mainly noticed in the case of government periodicals. The changes in the name of the sponsor have been shown as below:

Bombay, Office of the Sanitary Commissioner→Directorate of Public Health→Local Self Government and Public Health Department; → Maharashtra, Public Health Department.

Changes in Place of Publication

Changes in the place of publication is a quite common phenomenon in the realm of periodicals. These changes have been shown as below:

Mussoorie→Roorkee→Allahabad→Calcutta→Dehra Dun. [When the succession is known] Allahabad; Lucknow; Calcutta. [When the succession is not known]

A SAD NOTE

Mr. J.C. Gera who worked with me in the initial phase of data collection was extremely eager to see the work in printed form. I am thankful to him for his help and feel sad for his untimely death.
